These exercises will be conducted by the Principal; and the Members of the Senior Class, will always be required to declaim pieces of their own composition. The Classification, which takes place at each general Exammation, subjects those who are deficient to the according subjects those who are deficient, to the necessity of remaining in a lower grade; white, on the stire hand, the hope of reaching a high standing, in a shorter than ordinary period, is held out to all who are ambitious to advance at a more rapid rate, than the usual average of a Class. A necessary records of the action of the standing of the standin permanent record of the relative standing of the Members in each Class, is kept by the Fa-culty, and servethe Membees in each Class, is kept by the Faculty, and serves as a guide, in awarding the honors of the College. The principal test of the Student's proficiency, will be found in the Lecture Room, where he waltundergo an Examination of one hour's duration, faceach Lesson, and those Members of the higher Classes, who see the mitted, under the das retion of the Principal Classes. The Professor of Grammar, will take charge of the English Department, and will have its cipal, to have their rooms out of College, will classes under his inspection, at the College, by visited, by the Principal, and the Professors, during the hours appointed, for their encouragement and aid in the prosecution of their studies. They must not be absent themselves from their rooms, during the hours of study, especially in the evening, except by permission from one of the Faculty; and a close attention will

be paid to the habits of the Students, that good

morals may be cultivated and preserved.

PUBLIC WORSHIP.

The Students will be required to attend public worship, in this City, both morning and afternoon; and Monitors for the several Churches, will make represent the several Churches, will make returns of all absentees, who will give an account of their absence to the Principal. The Roll will be called, also, before the daily devotions at the College. No Student will, at any time, leave the City, without express leave obtained from the Principal. That the public may rest assured of the prevalence of no particular sectarian influence at this College, the following clause is extracted from the Chireter; with the letter and spirit of which, the Officers of instruction, will invariably comply. The second section of the thirty seventh chap-ter of the laws of Maryland, required, that the said College shall be founded and main "the said College shall be founded and main tained forever, upon a most liberal plan, for the benefit of youth of every religious denomination, who shall be freely admitted to equal privileges and advantages of education, and to all the interacy honours of the College, according to their merit, without requiring or enforcing any religious or civil test, or urging their attendance upon any notionals. any religious or civil test, or urging their at-tendance upon any porticular religious wor-ship or service, other than what they have been educated in, or have the consent and approba-tion of their parents or guardians to attend."

tion of their parents or guardians to attend.

DISCIPLINE, &c.

A record of all deficiencies at Collega exercises will be kept, and sent to each parent or guardian, at the close of every term. And, whenever a Student shall be found failing to secure the end for which he will have been placed at the College, he may be sent home privately, except in cases of a misdemeanour, or offence against the laws, when he shall be punished by the ordinary penalties. By the adopoffence against the laws, when he shall be purished by the ordinary penalties. By the adoption of a kind and parental demeanour, on the part of the Officers, it is hoped that such extreme cases will be avoided; and from the extreme cases will be avoided; and from the various advantages of location for the College, it is believed, that few places promise this immunity, in a higher degree, than the City of Annapolis. Its population is not large—the situation is central-its healthfulness, is sur satuation is central—its healthfulness, is sur-passed by that of no place in the Southern States—access to the College, from all parts of the Union, by which parents would wish to hold communication with their sons, is most frequent and easy, and the expenses of living are commanatively small. Annanolis is the Seat are comparatively small. Annapolis is the Seat of the Government of the State; and the time of the Annual Commencements, which hap-nens during the Session of the Legislature, affords a high incentive to young men, to distin-guish themselves, by their literary performances.

ADMISSION.

Candidates for any standing in the College, will be required to bring from their teachers, testimonials of good moral character; and, in no case, will a Student be received from any other College, to the same standing in this, unless he shall bring. from the President, or other authority of such College, a cartificate of his honor. ity of such College, a certificate of his honorable dimission.

It has not been thought advisable to establish any commons. Board, including bedding, washing, and roomrent, may be had, however, in private families in the city, for 120 dollars per Lectures,

COMMENCEMENTS.

The Annual Commencements, take place in Pebruary, when all Degrees are to be conferred. The Faculty will assign to the Candidates for the Baccalaureate, and for the Maater's Degree, the parts to be performed; and if any one should refuse the part assigned, or neglect to attend, his Degree may be withheld.

extensivly band by unfortunate sufferers labour-ing under the disease of Hernia, that a particu-far account of its mechanical construction of the surgical effects is thought unnecessary.— The subjoined remarks from Physicians and Surgeons of high respectability in our country, are the results of much practical experience in the use and application of this truss.

James Thatcher, M. D. author of the Modern Practice, in his second edition, under the anne-arundel county, sc. subject of Hernia, remarks "Dr. Hull is ex. (A) application to Anne-Arundel co clusively entitled to the credit of first adapting the true Surgical principle for the radical cure of Hernia. He happily conceived the idea that the pad of the Truss should be so constructed as simply to support the inoscular fibres around the ring or aperture as much as possible, in the state in which they are maintained in perfect health. Unless this be attained the parts can lever recover their natural tone, whatever may

be the degree of pressure applied."

Samuel Ackerly, M. D. in his excellent edition of 'Hooper's Medical Dictionary,' under the head of 'Fruss,' after enamerating the evisite auditing from the use of the defective trusses formerly worn, says. This evil was not fully remedied until Dr. Amos G. Hall, of New York, turned his attention to the subject, and by his improvement in the construction of trusses, has rendered it certain that all recent ruptures and those of children, may be permanent ly cured, and those of old people and of long standing, may, in many cases, also be remedied. The pad of Dr. Hull's Truss is concave and not convex; and hence the raised circular

and not convex; and hence the raised circular margin, by proper adaptation, presses upon the sides of the heroial opening, and tends to close the aperture and cure the heroia?

M. L. Knapp, M. D. late Physician and Surgeon to the Baltimore General Dispensary, in a communication to Ductor Hull, says; it have applied your trusses in several hundred cases during the last, these years. cases during the last three years. A great many upon whom I have applied your trusses, have been radically cured; and some of these
